

Contemporary endorsements for Dr. Kuhar's referenced 1973 study

Dr. Kuhar's study will be a revelation to many people. He shows that the abortion plague is far more devastating than most of us realize. He conclusively proves that contraception is not only a selfish practice that leads to abortion: contraceptives themselves are homicidal drugs and devices. They are more widely lethal than commonly known surgical forms of killing unborn children.

Please God, this study will awaken the conscience of our nation. My prayer is that Infant Homicides Through Contraceptives will help to stem the global genocide of our day.
~ **John A Hardon, S.J.**

Contraception is the defining evil of our time. Its legitimization leads inevitably, not only to abortion and euthanasia, but to a host of other evils, including promiscuity, divorce, pornography and homosexual activity. Dr. Kuhar provides abundant and authoritative detail on this modern plague. As he demonstrates, the contraceptive movement is based on exploitation and lies, including the lie that many abortifacients are "merely" contraceptives. Its foundational lie, however, is its claim that man, rather than God, is the arbiter of whether and if so, when human life will begin. The contraceptionist denies to God the right to be God. In this light the contraceptive movement is diabolic, a replay of the original Genesis script.
~ **Charles Rice,**

Professor of Law

It is typical of our present "Culture of Death" that the scientific facts concerning oral contraceptives have been withheld from the public by the pro-abortionists dominating the Pharmaceutical Industry and the Mega-Media.

Pro-lifers will find invaluable Dr. Bogomir M. Kuhar's research gathering together the scientific data illustrating the abortifacient character of many types of contraceptives.

~ **Jim Likoudis, President,**

Catholics United for the Faith (CUF)

Modern reproductive technology has made it virtually impossible to sustain the so-called "anti-abortion, pro-contraception" position. With the recognition that the estrogen fraction of combination contraceptives was responsible for the many thromboembolic complications attendant on their use, it became necessary to reduce the side effects. The estrogen component was, however, responsible for the ovulation suppression effect of the pill. What emerged were pills with mini and micro doses of estrogen and progestin-only pills. These so-called contraceptives work primarily by their effect on the prevention of the implantation of the blastocyst. This anti-implantation is an abortifacient effect. To be truly pro-life requires that we go beyond surgical abortion to oppose those early abortions which result from pills and intrauterine devices. Dr. Kuhar has authoritatively and lucidly documented the mechanism leading to these "silent" abortions.

~ **Eugene F. Diamond, M.D.**

Loyola University Medical Center

CHRIST THE KING Catholic Church

An apostolate of the Priestly Fraternity of St. Peter preaching the Gospel & sanctifying souls according to the liturgical books of 1962.

3rd Sunday after Epiphany

January 26, 2025 A.D.

Pastor: Fr. Chris Hathaway, FssP

fr.hathaway@christthekingsarasota.org

Assistant: Fr. Vince Huber, FssP

fr.huber@christthekingsarasota.org

Secretary: Susan Hemeryck

Please pray for: Lora Williamson (1/26); Cynthia Flamminio, Garrison Rainwater, Rick Miller (1/19); Aaron Pruitt, Steve Deitche, Peggy LaBrecque, Leonard West (1/5); Markus Dixon, & McNamara family (12/29).

Dear Faithful of Christ the King,

1/26/25

Thank you for your continued prayers, donations & pledges in support of our building project **Do This in Memory of Me.**

Last week's bulletin listed some changes to our building. Soon, our architect will send us new drawings (he believes the changes will save CtK \$1.5 million.)

Meanwhile, on Feb. 6, the diocese has a preapplication virtual meeting with the County. This is the first requirement in the Special Exemption process (for the bell tower); the actual hearing(s) is/are at least 3-6 months down the road. Also, once drawn, the drawings will be given to our MEP (mechanical, electrical, plumbing) engineers for their "hard numbers." Once obtained, these changes will be shown the bishop for his approval.

God bless you & thank you, St Joseph, for hearing us! frh

What does it mean to be "Pro Life"?

Many dioceses list, as anti-life positions, abortion, cloning, embryonic stem cell research, in-vitro fertilization, euthanasia (assisted suicide), infanticide, suicide, & capital punishment. Overlooked, *for some reason*, are **contraceptives**. We speak to that now. (ref. "Infant Homicides Through Contraceptives" by Bogomir M. Kuhar, Pharm D.)

In fine, oral contraceptives have three effects: 1. prevent ovulation by suppressing the hypothalamus part of the brain; 2. change the cervical mucus, hindering sperm migration; 3. prevent implantation ("nesting" or nidation) of the newly conceived baby onto the lining (endometrium) of the mother's womb. This last causes a chemical abortion, the death of a person. We ask, "Is this Pro-Life"? Below is Dr. Kuhar's 1973 estimate of **annual infant deaths arising from surgical & chemical abortions in the U.S.A.**, a country which ought to promote life, liberty & the pursuit of happiness for all. (See the back for endorsements of this study.)

Users	Type	Infant Homicides (low to high range)
13,900,000	Oral Contraceptives	834,000 – 4,170,000
1,500,000	Intrauterine Device	3,825,000 – 3,825,000
1,000,000	Depo-Provera	1,200,000 – 1,800,000
1,500,000	Norplant	2,250,000 – 2,925,000
1,500,000	Surgical Procedure	1,500,000 – 1,500,000
50,000	Prostaglandin & Saline	50,000 – 100,000
19,450,000	Totals	9,659,000 – 14,320,000
